

## SAFETY DATA SHEET

Revision date: 2024/03/15

Compliant with 29 CFR §1910.1200 HCS 2012

Compliant with HPR WHMIS 2015

# Gleam™ Xcel 100 L

## 1. PRODUCT AND COMPANY IDENTIFICATION

|                          |                                 |
|--------------------------|---------------------------------|
| <b>Product Name</b>      | Gleam™ Xcel 100 L               |
| <b>Chemical Name</b>     | Enzyme preparation              |
| <b>Declared activity</b> | Xylanase (endo-1,4-), Cellulase |

|                                         |                                                                                                                     |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| <b>Use of the substance/preparation</b> | Novozymes' enzyme preparations are biocatalysts used in a variety of industrial processes within food manufacturing |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------|

### Supplier's details

Novozymes North America, Inc.  
77 Perry Chapel Church Rd., Box 576  
Franklinton, NC 27525  
E-mail: [SafetyDataSheet@novozymes.com](mailto:SafetyDataSheet@novozymes.com)  
[www.novozymes.com](http://www.novozymes.com)

### Information Telephone Number

1-919-494-3000, 8 am - 4:30 pm EST M-F

### Emergency Telephone Number

1-800-424-9300 (Chemtrec) 24 hours every day

## 2. HAZARD IDENTIFICATION

### Classification

Classification of the chemical in accordance with 29CFR §1910.1200  
WHMIS Classification

Respiratory sensitization Category 1

### Label elements

#### Danger

#### Hazard statements

H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

#### Precautionary Statements - Prevention

P261 - Avoid breathing dust/fume/gas/mist/vapors/spray

P284 - In case of inadequate ventilation wear respiratory protection

#### Precautionary Statements - Response

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing

P342 + P311 - If experiencing respiratory symptoms: Call a POISON CENTRE or doctor/physician

#### Hazards not otherwise classified (HNOC)

|   |                      |
|---|----------------------|
| 1 | Health               |
| 1 | Flammability         |
| 0 | Reactivity           |
| X | Protective Equipment |

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical name              | CAS No.   | IUB No. | Weight-% |
|----------------------------|-----------|---------|----------|
| Xylanase (endo-1,4-) (aep) | 9025-57-4 | 3.2.1.8 | 0.1 – <1 |
| Cellulase (aep.)           | 9012-54-8 | 3.2.1.4 | 0.1 – <1 |

aep (active enzyme protein) contributes to the GHS classification.

## SAFETY DATA SHEET

Gleam™ Xcel 100 L  
Revision date: 2024/03/15

Page

3 / 7

### 4. FIRST AID MEASURES

In case of unintended overexposure, the following measures apply

#### Inhalation

Effects  
Symptoms

May cause allergic respiratory reaction.  
Shortness of breath, wheezing and coughing.  
The effect of inhalation may be delayed.

First Aid

Remove person to fresh air. If signs/symptoms continue, get medical attention.  
Show this safety data sheet to the doctor in attendance.

#### Skin Contact

Effects  
Symptoms  
First Aid

May cause slight irritation.  
Slight irritation.

Remove and wash contaminated clothing before re-use. Wash off immediately with plenty of water. If symptoms persist, call a doctor. Show this safety data sheet to the doctor in attendance.

#### Eye Contact

Effects  
Symptoms  
First Aid

May cause slight irritation.  
Slight irritation.

Hold eye open and rinse slowly and gently with water for 15-20 min. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. If symptoms persist, call a doctor. Show this safety data sheet to the doctor in attendance.

#### Ingestion

Effects  
Symptoms  
First Aid

Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.  
Irritation.

Rinse mouth with water and drink plenty of water. If symptoms persist, call a doctor. Show this safety data sheet to the doctor in attendance..

---

### 5. FIRE-FIGHTING MEASURES

#### Flammable Properties

Slightly flammable according to HMIS criteria.

#### Suitable Extinguishing Media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

#### Unsuitable Extinguishing Media

None.

#### Hazardous Combustion Products

None.

#### Specific Hazards Arising from the Chemical

May cause allergic respiratory reaction

#### Protective Equipment and Precautions for Firefighters

Self-contained breathing apparatus and standard turn-out apparel

---

### 6. ACCIDENTAL RELEASE MEASURES

#### Personal Precautions

For personal protection see section 8

#### Environmental Precautions

Collect spillage.

#### Methods for cleaning up

Avoid formation of dust and aerosols.

Spilled preparation should be removed immediately to avoid formation of dust from dried preparation.  
Take up by mechanical means preferably by a vacuum cleaner equipped with a HEPA (High Efficiency

Rethink Tomorrow

# SAFETY DATA SHEET

Gleam™ Xcel 100 L  
Revision date: 2024/03/15

Page 4 / 7

Particulate Air) filter. Flush remainder carefully with plenty of water. Avoid splashing, high pressure washing or compressed air cleaning to avoid formation of aerosols. Ensure sufficient ventilation. Wash contaminated clothing.

**Other Information** For personal protection see section 8.

## 7. HANDLING AND STORAGE

**Handling** Avoid formation of dust and aerosols.  
Ensure adequate ventilation.  
Liquid enzyme preparations are dustfree preparations  
However, inappropriate handling may cause formation of dust or aerosols

**Storage** Keep tightly closed in a dry and cool place. The product can be transported at ambient temperature.  
Following delivery, the product should be stored as recommended. Temperature 0-10 °C (32-50 °F)

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| Chemical name              | DNEL Dermal Acute Local (Workers) | DMEL Inhalation Long term Local (Workers) |
|----------------------------|-----------------------------------|-------------------------------------------|
| Xylanase (endo-1,4-) (aep) | -                                 | DMEL = 60 ng/m <sup>3</sup>               |
| Cellulase (aep.)           | -                                 | DMEL = 60 ng/m <sup>3</sup>               |

### Derived No Effect Level (DNEL)

### Derived Minimal Effect Level (DMEL)

When enzymes are used for spray products or hard surface cleaning, exposure of enzymes may exceed the safety level (15 ng/m<sup>3</sup> DMEL). If you intend to develop such products, please contact Novozymes for further safety evaluation.

### Occupational exposure controls

**Engineering Controls** Ensure adequate ventilation, especially in confined areas.  
Maintain good conditions of industrial hygiene. Some processes may require enclosures, local exhaust ventilation, or other engineering controls to control airborne levels. Additional handling and healthy/safety information is available upon request

### Personal Protective Equipment

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment that meets HEPA/P100 specifications

**Eye Protection** Wear safety glasses with side shields (or goggles)

**Skin and body protection** No special technical protective measures are necessary

**General Hygiene Considerations** Handle in accordance with good industrial hygiene and safety practice  
**Environmental exposure controls** Local authorities should be advised if significant spillages cannot be contained

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

|                                              |                                                                                                                                       |
|----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Odor                                         | Slight fermentation odor                                                                                                              |
| pH                                           | Adjusted to the range where active enzyme is stable – typically pH 4 – 9                                                              |
| Melting point / freezing point               | No data available                                                                                                                     |
| Boiling Point/Range                          | No data available                                                                                                                     |
| Flash Point                                  | Not determined                                                                                                                        |
| Evaporation rate                             | Not available                                                                                                                         |
| Flammability (solid, gas)                    | Not determined                                                                                                                        |
| Upper/lower flammability or explosive limits | Not available                                                                                                                         |
| Vapor Pressure                               | No data available                                                                                                                     |
| Vapor density                                | Not available                                                                                                                         |
| Density (g/ml)                               | 1.24                                                                                                                                  |
| Solubility                                   | Readily soluble in application-relevant solutions at all levels of concentration, temperature and pH which may occur in normal usage. |
| Partition Coefficient (n-octanol/water)      | No data available                                                                                                                     |
| Autoignition temperature                     | Not available                                                                                                                         |
| Decomposition temperature                    | Not available                                                                                                                         |
| Viscosity                                    | Not available                                                                                                                         |
| <b>Other information</b>                     | No information available                                                                                                              |

## 10. STABILITY AND REACTIVITY

|                                           |                                             |
|-------------------------------------------|---------------------------------------------|
| <b>Reactivity</b>                         | Not relevant                                |
| <b>Chemical stability</b>                 | Stable under recommended storage conditions |
| <b>Possibility of hazardous reactions</b> | None under normal processing                |
| <b>Conditions to Avoid</b>                | None                                        |
| <b>Incompatible materials</b>             | None                                        |
| <b>Hazardous Decomposition Products</b>   | None                                        |

## 11. TOXICOLOGICAL INFORMATION

### Information on toxicological effects

Repeated inhalation of enzyme dust or aerosols resulting from improper handling may induce sensitization and may cause allergic type 1 reactions in sensitized individuals

Mild skin irritation

Mild eye irritation

| Chemical name              | Acute oral toxicity                      | Acute inhalation toxicity | Skin corrosion/irritation    | Serious eye damage/eye irritation |
|----------------------------|------------------------------------------|---------------------------|------------------------------|-----------------------------------|
| Xylanase (endo-1,4-) (aep) | LD50: > 2000 mg/kg bw (OECD TG 401, 420) |                           | Not irritating (OECD TG 404) | Not irritating (OECD TG 405)      |
| Cellulase (aep.)           | LD50: > 2000 mg/kg bw (OECD TG 401, 420) |                           | Not irritating (OECD TG 404) | Not irritating (OECD TG 405)      |

| Chemical name              | Specific target organ toxicity (single exposure) | Genetic toxicity                                           | Skin sensitization | Respiratory sensitization     |
|----------------------------|--------------------------------------------------|------------------------------------------------------------|--------------------|-------------------------------|
| Xylanase (endo-1,4-) (aep) |                                                  | No indication of mutagenic effects (OECD TG 471, 476, 487) |                    | Sensitizer (Human experience) |
| Cellulase (aep.)           |                                                  | No indication of mutagenic effects (OECD TG 471, 476)      |                    | Sensitizer (Human experience) |

### 12. ECOLOGICAL INFORMATION

#### Toxicity

| Chemical name              | Daphnia, acute                                         | Algae, acute                                               | Fish, acute                                              |
|----------------------------|--------------------------------------------------------|------------------------------------------------------------|----------------------------------------------------------|
| Xylanase (endo-1,4-) (aep) | EC50 (48 hours): >42 mg test substance/l (OECD TG 202) | ErC50 (72 hours): > 1000 mg test substance/l (OECD TG 201) | LC50 (96 hours): > 1000mg test substance/l (OECD TG 203) |
| Cellulase (aep.)           | EC50 (48 hours): >39.5 mg aep/l (OECD TG 202)          | -                                                          | LC50 (96 hours): >39.5 mg aep/l (OECD TG 203)            |

#### Persistence/Degradability

| Chemical name              | Persistence and degradability       | Partition coefficient (n-octanol/water) |
|----------------------------|-------------------------------------|-----------------------------------------|
| Xylanase (endo-1,4-) (aep) | Readily biodegradable (OECD 301)    | LogPow: <0                              |
| Cellulase (aep.)           | Readily biodegradable (OECD 301E/F) | LogPow: <0                              |

| Chemical name              | Bioaccumulative Potential |
|----------------------------|---------------------------|
| Xylanase (endo-1,4-) (aep) | Does not bioaccumulate    |
| Cellulase (aep.)           | Does not bioaccumulate    |

Mobility in soil Not relevant

Other adverse effects No information available

### 13. DISPOSAL CONSIDERATIONS

Disposal of wastes Dispose of in accordance with local regulations.

Contaminated Packaging Dispose of wastes in an approved waste disposal facility.

### 14. TRANSPORT INFORMATION

#### Transport Regulations

No dangerous goods according to transport regulations

No special precautions required

UN-No Not applicable

Proper Shipping Name Not applicable

Packing Group Not applicable

Reportable Quantity (RQ) Not applicable

Marine Pollutant Not applicable

#### International Regulations

IATA Not regulated

IMDG Not regulated

### 15. REGULATORY INFORMATION

The product complies with the recommended purity specifications for food-grade enzymes given by the Joint FAO/WHO Expert Committee on Food

Additives (JECFA) and the Food Chemical Codex (FCC).

## USA, Federal Regulations

### TSCA Inventory

The active ingredient and all components of the enzyme preparation are listed on the TSCA inventory

### SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and 40 CFR Part 372.

## SARA 311/312 Hazardous Categorization

|                                   |    |
|-----------------------------------|----|
| Acute health hazard               | No |
| Chronic Health Hazard             | No |
| Fire hazard                       | No |
| Sudden Release of Pressure Hazard | No |
| Reactive Hazard                   | No |

## USA, State Regulations

### California Proposition 65

This product does not contain any intentionally added Proposition 65 chemicals.

## Canada

### DSL/NDSL

All components are listed either on the DSL or NDSL

### WHMIS Statement

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and the SDS contains all the information required by WHMIS 2015.

---

## 16. OTHER INFORMATION

### Training advice

Details on the safe handling of this product are located in the Novozymes Customer Center Document Library on [www.mynovozymes.com](http://www.mynovozymes.com)

### GHS-Classification

The GHS calculation method has been used for classification of this mixture.

### Disclaimer

The information provided on this SDS is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guide for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered as a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text. Furthermore, as the conditions of use are beyond the control of Novozymes, it is the responsibility of the customer to determine the conditions of safe use of these products.
